

QA Test Document — Inventory List

Fixture for AQA multi-turn / extraction tests. All values are intentionally unique and non-real.

The following inventory contains five items. Each item has a unique name, a quantity, and an internal code. Use these facts to verify extraction, aggregation, and reasoning by the AI assistant.

Item	Name	Quantity	Internal Code
A	Zephyrine Coil	7	QX-451
B	Marblewood Plank	23	QX-892
C	Glimmerstone Shard	4	QX-203
D	Hollowreed Fiber	15	QX-677
E	Brasswing Hinge	31	QX-118

Note: Only the Marblewood Plank is fire-resistant. No other item in this list has any fire-resistant property.

Reminder: this document lists exactly five items. There is no Titanium Rod, no Copper Valve, and no item beyond the five above.
